Dear friends of New Creation Preschool,

As you know, our preschool is located in the basement level of New Creation Fellowship Church's building, Sister Frieda Chapel. Up until a few weeks ago, this chapel, built in the 1950s, still had the original elevator. In order for people to access the sanctuary/wheelchair accessible bathroom/church office and the basement preschool/kitchen, flights of stairs must be navigated.

After years of careful maintenance, the old elevator has been deemed "broken beyond repair." Volunteers from our church community have spent hours removing it and prepping the shaft for a new lift. This lift, available just inside the ground level entrance, will be able to accommodate at least 2 adults and a standard wheelchair, giving access to the preschool, kitchen, bathroom, sanctuary and church office.

The total estimated cost is \$60,000 and we are inviting people to participate in funding the lift. If donations from friends of the preschool exceed the cost of the lift, funds will be deposited in our Preschool Fund (reserved for preschool supplies and equipment).

If you are interested in contributing to this important project, go to our donation page by visiting our website ([www.newcreationpreschool.com](http://www.newcreationpreschool.com)), clicking [this direct link](#) or scanning here. →

As a non-profit we take a lot of leaps of faith and thank you for being part of it,

*Kristin Neufeld Epp*
